

ULTRA-PREMIUM BRAKE SYSTEM COMPONENTS

# EDITORIAL CONTACT SHEET

ADVICS (Advanced Intelligent Chassis Systems) is a supplier of ultra-premium OE brake system components that are engineered and manufactured with industry-leading technology and innovation for the aftermarket. With the combined experience of AISIN, DENSO and SUMITOMO ELECTRIC, three of the world's premier automotive suppliers, the ADVICS journey represents the very best of Japanese quality, global expertise and environmental sustainability for the road ahead. ADVICS ultra-premium aftermarket product line includes brake pads, master cylinders, wheel cylinders, brake boosters, brake rotors and calipers. ADVICS North America, Inc. is a wholly owned subsidiary of ADVICS Co. LTD. and has expanded to include more than 20 locations and over 10,000 employees on a consolidated basis worldwide.
